OUR GOAL: Our Company Mission

LEAD POWER's #1 GOAL is to always provide you with the very best leads, tools, and training to help you build your Network Marketing business.

The single most important thing that will determine your success (or failure) in Network Marketing is to always have plenty of the right people to talk to about your business. Having a constant stream of new prospects looking at your business on a daily basis is by far the most critical task for developing a successful, profitable and sustainable business.

The next essential element is for you to possess the right skill set. You must know what to say and when to say it. Say the right things to the right people and you will be able to enjoy the lifestyle of your dreams. But use the wrong words, and things can go sideways pretty fast.

With both of the above points in mind, we provide you with an on-going supply of the best real-time prospects who are looking for ways to make additional income working from home. We also provide you with the scripts, the support, and the training calls to develop your skillset and enjoy the success and the lifestyle you desire!

THE LEADPOWER PROMISE

Here at Lead Power we speak with the authority of experience. You see, we have been generating high-quality leads since 1998 and have helped well over 174,000 network marketers. Our company founder is known for being a trusted industry leader and ultra-successful network marketer himself, with a track record spanning more than 20 years. He personally built downline distributor teams numbering in the Hundreds of Thousands, and did it with several companies! Clearly, he understands our profession and the daily problems you face.

All this real-world experience enables us to **PROMISE YOU** the very highest quality leads combined with the best possible training.

OUR PHILOSOPHY

Our philosophy is simple and straightforward: i.e. There are 2 critically important factors that will ultimately determine your success in Network Marketing.

1. You must have enough of the right people to talk to about your business on a daily basis.
2. You must know the right things to say and avoid saying all the wrong things.

Furthermore, we understand that your goal is to make money, not to spend it wastefully. With that in mind, Lead Power believes in providing you with the very best value for every dollar you invest into building your business.

WE CAN DELIVER

In a world overrun by hype and unkept promises, here at Lead Power we believe in keeping our promises.

You get the precise details about how each one of our leads is generated, depending on the category you select. In addition, we do whatever is necessary to absolutely ensure we always have enough volume to keep up with your demand.

There are 3 categories of leads we deliver that are all focused on the Network Marketing profession.

Here is a breakdown of our numbers. 3,000 Phone-Interviewed Leads are produced weekly. 1,500 Long Form Surveyed Leads and 4,500 Real-Time Short Forms Leads are produced weekly.

With nearly 40,000 real-time leads generated every month, we are far and away the largest and most successful lead generation source for network marketers.

OUR TRAINING

Having a daily supply of great leads is only ONE PART of the system. You must also have the right skill set to make effective presentations and close deals. We provide pre-recorded lessons in a 20-Module Training Series PLUS we have hands-on LIVE TRAINING that delivers both immediate and long-lasting results. You will be able to participate in our LIVE DIAL Training Calls weekly. During these eye-opening live phone conferences, our lead instructor gets on the phone and calls our own leads, while you get to listen in. He has conversations with these prospects just like the ones you'll be having.

This is REAL training, not a bunch of theory or philosophy. You get to experience real-life situations done in real-time. Following the calls, the instructor analyzes what happened for everyone's benefit. Afterwards there's a question and answer segment. Typically, we have hundreds of reps silently listening in on the conference line. Sometimes one of them will ask a question you didn't think of, so you get to learn far more than if these were merely one-on-one lessons.

This is genuine training at its very best. There's NOTHING ELSE that can compare!
