

HERE'S HOW OUR WHOLE PROGRAM WORKS!

Before you order any leads, download and read "THE PROFITABLE NETWORK MARKETER". You will be very pleasantly surprised when you see just how easy it is to read. You'll understand the entire process of calling leads, what to say, how to follow up, and how our services work. STEP 2 **BUY SOME LEADS**

Now it's time to get into action. We offer a variety of different levels of pre-qualified leads. When you click the following link, you'll see the 4 most popular kinds that our customers typically order. They are ALL good! It's just that different reps prefer some kinds over others. Many people start by ordering one of each package. With prices that low, you can see why. This way you can experience which types work best for you. It's completely your choice, so start with whatever price point is most comfortable to you.

STEP 3 **REGISTER FOR "LIVE DIAL" TRAINING**

It's one thing to read about it in a book. But most people learn new things best when they have someone actually SHOW them how it's done. That is exactly what we do. 12 times a month our master instructor actually gets on the phone and calls our leads, in real time. You get to listen-in. This is done in small groups, so you can get your questions answered, and learn from others who are doing it. These training sessions are recorded, so you can go back and review what you learned.

STEP 5 **READ YOUR TRAINING BOOKS AGAIN**

Nearly everybody has experienced this. You watch a movie or read a book more than once, and you notice new and different things about them each time. The same is true here. Read and re-read your training books. It's exactly the same thing as refilling your car's fuel tank, or sharpening your saw. It needs to be done on a regular basis.

STEP 6 **ORDER A LARGER QUANTITY OF LEADS**

Once you have a good handle on what you're doing, it's time to go full speed. That means you need to order as many leads as you can possibly handle. Doing that forces you to get the work done, even during those times when you don't feel like it. Let's face it. Sometimes circumstances can get you off track. The best way to ensure you stay focused on building your business is to keep busy with *revenue generating activities*. As anyone who has become successful in our profession will tell you, nearly every problem you might encounter in network marketing can be solved by simply talking to more people.

STEP 7 **CONTINUE WITH YOUR TRAINING**

One consistent similarity between every Top Earner in our profession is that they spend a good amount of time each and every week doing some sort of personal development. They are constantly striving to become better.

To become, or to remain a Top Earner, engage in your own personal development.

Be sure to stay connected with our “Live Dial” training sessions, read and re-read your training materials, continue ordering as many leads as you can handle so that you never fall into the common trap known as “management mode”. Always lead by your own good example of personally recruiting. This is, after all, a business based on the cornerstone of duplication.

In closing, there is one more thought that will help you to achieve your goals and dreams. That is to STAY ACCOUNTABLE.

When you are a ‘newbie’ you need to be accountable to your upline. Keep to the work schedule and tasks you agree upon when you signed up.

As you build your team, be accountable to them. Keep your word. Do your work. Share your results. Strive for constant improvement.

Follow these 7 simple steps. Repeat the ones that are necessary. Soon, you too will be able to enjoy the lifestyle of your dreams.
